

Value of your metrics

Goodbye monitoring, welcome observability
@gianarb - gianarb.it

Observability vs Monitoring

Learning vs eye examination

Debugging vs Ops work

SWEs should run their code

We need Ops people. I ❤️ Ops

Terms:

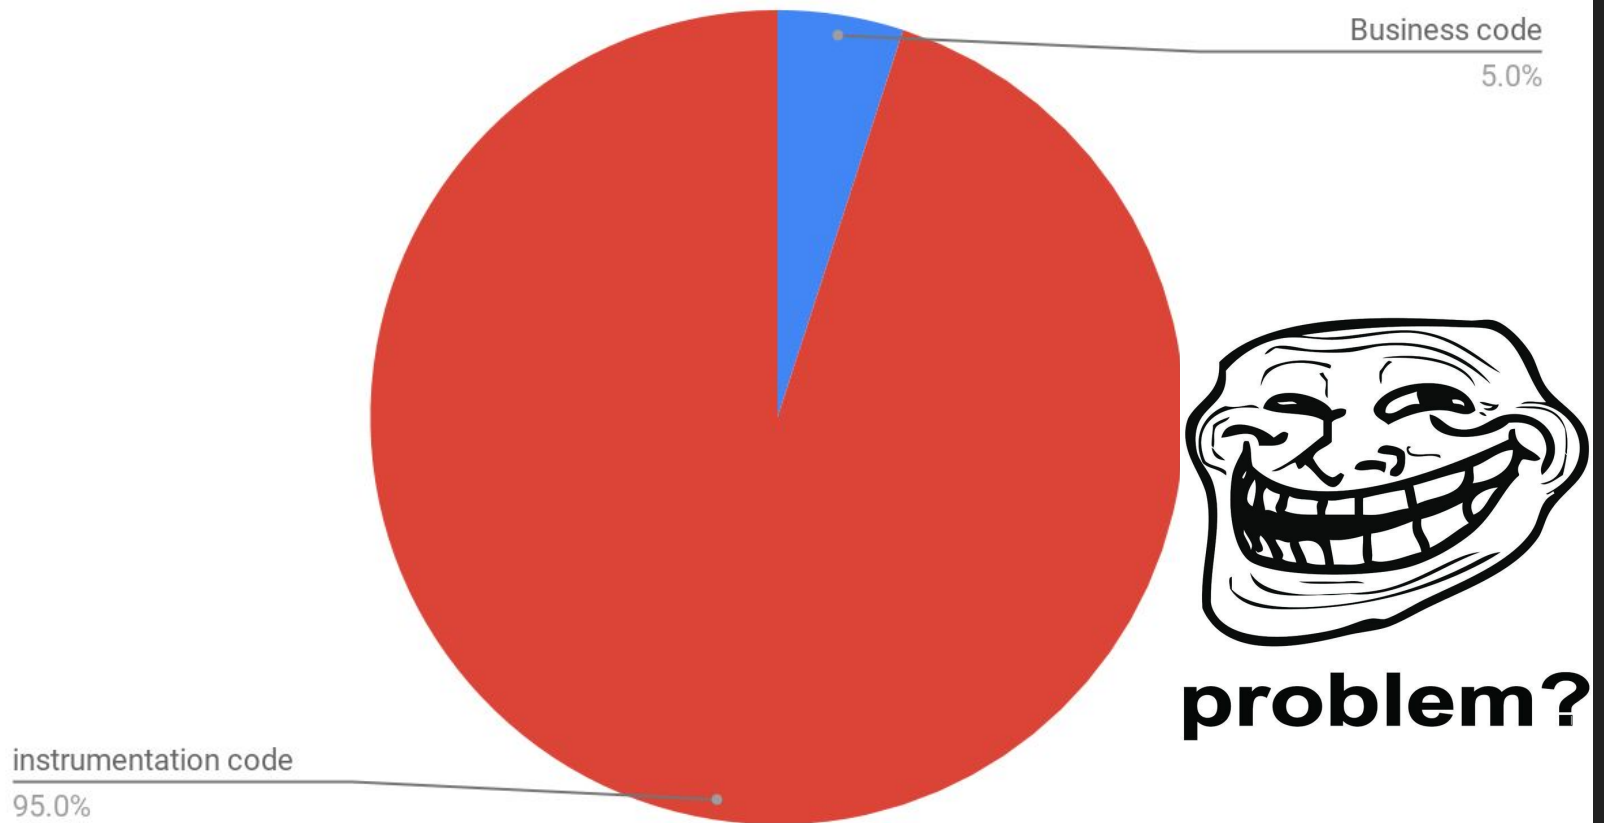

- Event
- Metric
- Tracing

Logs are just a transport layer

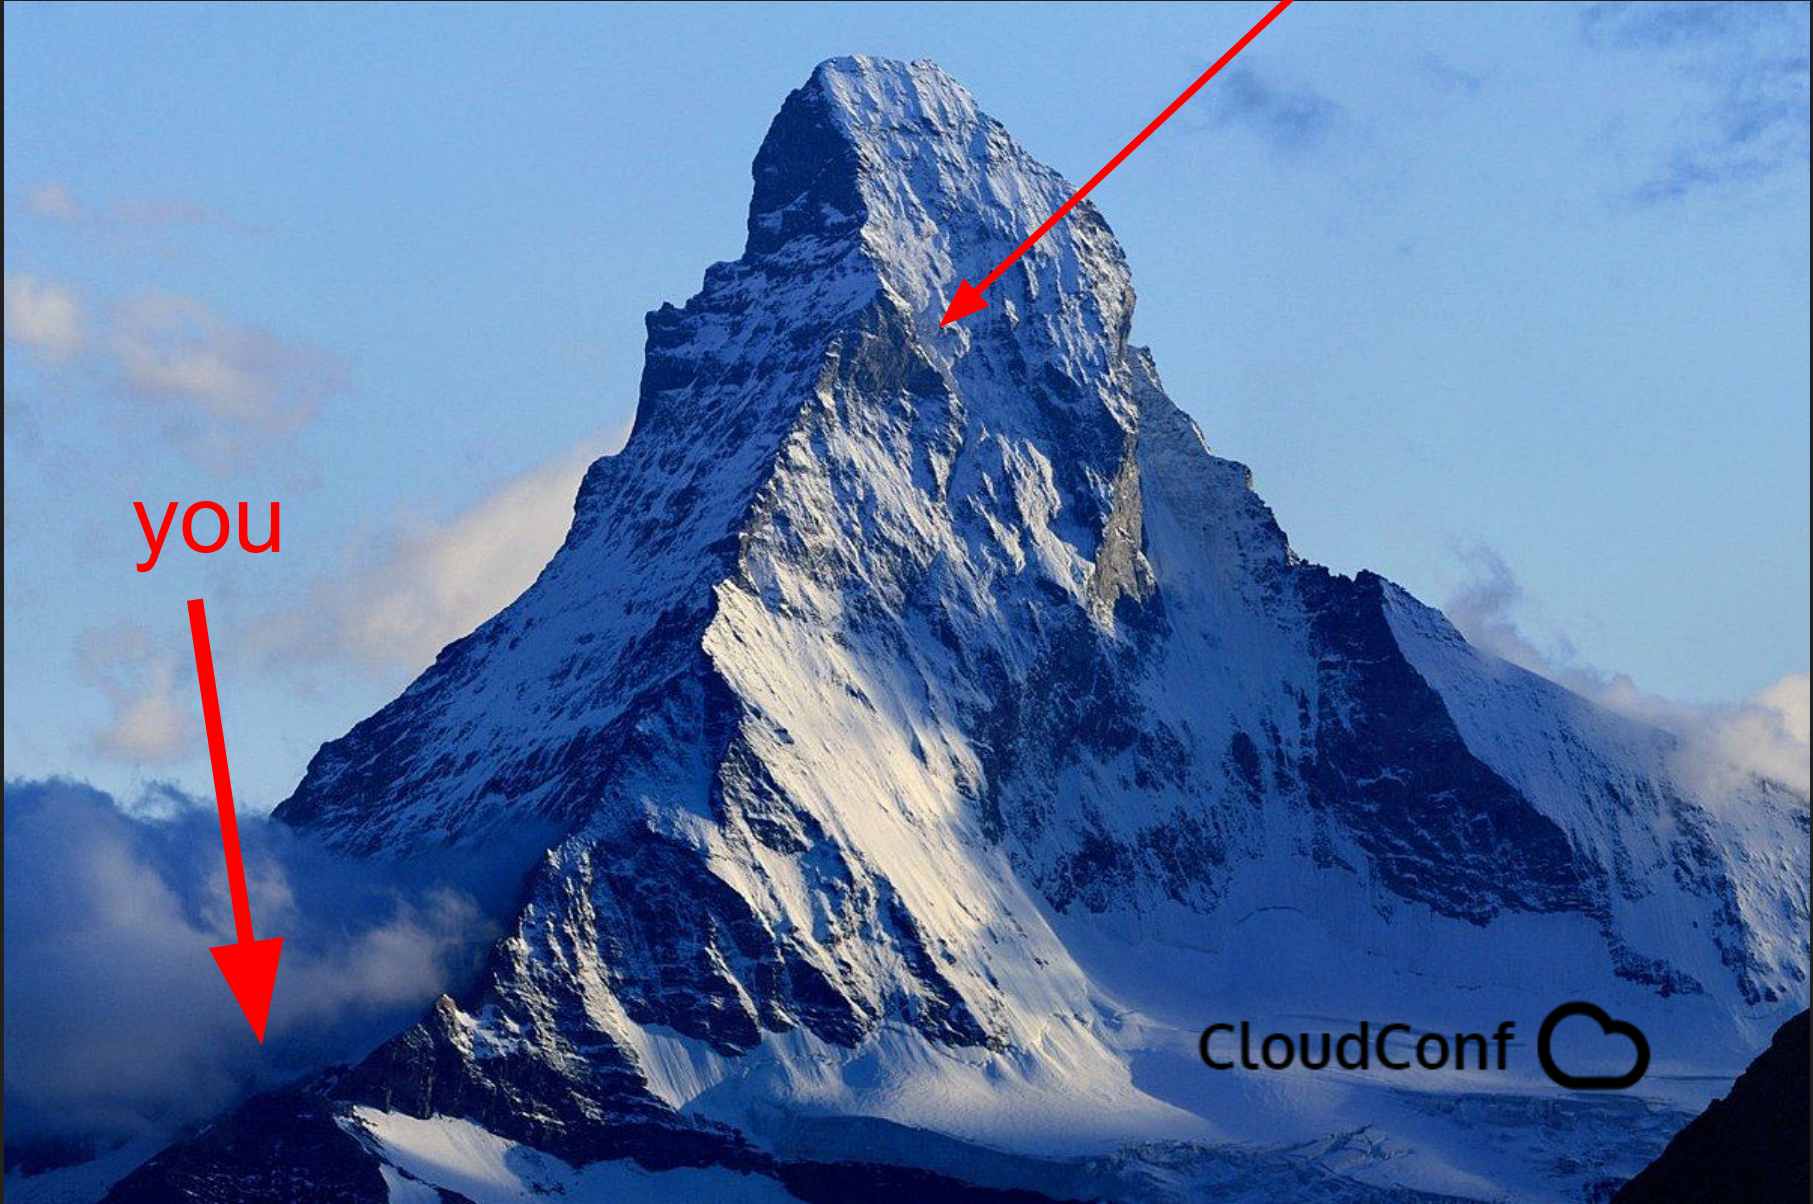

Instrumentation is part of the development workflow

Code distribution

dashboards

you

Staging environment are useless

Allow your team to test in production

Why all this troubles?

- Cloud
- Containers
- Distributed systems

Build tools to have a better
point of view on your system

Do you need more?
